## Education

**CSMSS Chh. Shahu College of Engineering, affiliated to DBATU**

*B.Tech in Computer Science and Engineering*

Sep. 2021 – May 2024

Aurangabad, Maharashtra

## Relevant Coursework

- Java Programming
- React.js
- RESTful APIs
- Spring Boot
- DBMS
- Data Structures Algorithms

## Professional Summary

- Full Stack Java Developer with expertise in Java, Spring Boot, React.js, MySQL, and RESTful API development.
- Built scalable and secure applications with clean architecture, optimized backend logic, and efficient API-driven workflows.
- Delivered responsive, high-performance web solutions that improved client engagement and business operations.
- Experienced in UI/UX implementation using React.js with strong focus on usability, accessibility, and mobile-first design.
- Collaborated with cross-functional teams and translated client requirements into reliable, production-ready features.
- Committed to writing maintainable code, improving system performance, and continuously learning modern Java and frontend technologies.

## Skills

- **Languages:** Java, JavaScript, TypeScript, SQL, HTML5, CSS3, Tailwind CSS
- **Frontend:** React.js, Redux, Angular.js
- **Backend Frameworks:** Spring Boot, Spring MVC, Microservices
- **Java Technologies:** Hibernate, JPA, JSP/Servlets, JDBC
- **Databases:** MySQL, PostgreSQL, MongoDB
- **Tools:** Git, GitHub, IntelliJ IDEA, Postman, Docker
- **Other Skills:** RESTful APIs, Spring Security (JWT), JUnit, CI/CD, AWS (Basics)

## Experience

**PayPerJump Pvt. Ltd.**

*Full Stack Web Developer (Full-Time)*

August 2024 – Present

Aurangabad, Maharashtra

- Developed full-stack applications using Java, Spring Boot, React.js, and MySQL, ensuring scalable and secure performance.
- Built and maintained RESTful APIs for authentication, data workflows, and business logic automation.
- Designed and optimized MySQL databases to enhance query efficiency and system reliability.
- Created admin panels and dashboards for Bhagya Construction to automate lead and property management.
- Improved UI/UX through responsive React.js interfaces with smooth multi-device performance.
- Integrated CMS features and collaborated with clients and teams to deliver high-quality, business-focused solutions.

**PayPerJump Pvt. Ltd.**

*Full Stack Web Developer Intern*

March 2024 – August 2024

Aurangabad, Maharashtra

- Assisted in developing full-stack features using Java, Spring Boot, React.js, and MySQL, contributing to scalable client applications.
- Supported API development, database design, and integration tasks, strengthening backend and data-handling skills.
- Implemented UI components and responsive layouts in React.js to enhance user experience and interface consistency.
- Collaborated with senior developers to understand SDLC workflows, participate in requirement gathering, and implement client feedback.
- Contributed to real-world enterprise modules, improving understanding of performance, security, and clean-code practices.

## Projects

---

### Bhagya Rental App – Full-Stack Rental System

*React.js, Java, Spring Boot, MySQL*

**Completed – 2025**

- Developing a scalable rental platform for Bhagya Construction with property listings, bookings, agreements, and secure payments.
- Built Spring Boot REST APIs for property management, user authentication, payments, and admin workflows.
- Implemented JWT authentication, role-based access, and complete property CRUD operations.
- Created responsive, dynamic UI screens in React.js to enhance user experience and engagement.
- Optimized MySQL schema and integrated Spring Data JPA for efficient data handling.
- Delivered user-driven updates and collaborated with stakeholders to improve business workflow efficiency.

### Gmail Clone – Full-Stack Web Application

*MongoDB, Express.js, React.js, Node.js (MERN)*

**January 2025**

- Built a secure email platform with JWT authentication, real-time inbox updates, dynamic search, and responsive UI using React.js and Tailwind CSS.
- Improved user efficiency with seamless email filtering, fast search, and intuitive navigation experience.

### Full-Stack Book My Show Clone

*MongoDB, Express.js, React.js, Node.js (MERN)*

**October 2024**

- \* Developed a ticket booking platform with JWT authentication, real-time movie listings, booking management, and a fully responsive UI using React.js and Tailwind CSS.
- \* Enhanced user convenience with booking history, secure transactions, and real-time seat availability updates.

## Leadership / Extracurricular

---

- Mentored interns at PayPerJump Pvt. Ltd. in project planning and SDLC, improving their technical and project management skills.
- Showcased creativity, teamwork, and stage confidence through school dance competitions.
- Led cricket team to semi-finals, demonstrating leadership, strategic thinking, and strong performance as a key bowler.
